**FOR RELEASE March 31, 2009**

## **FROM BUTTERFLIES TO RAIN BARRELS, SOMETHING FOR EVERYONE!**

### **The Pinellas Living Green Expo returns to The Harborview Center.**

**The Pinellas Living Green Expo** returns to Clearwater's Harborview Center with a weekend jam packed with great ideas and solutions on how we can save money and save the environment. The popular event, now in its' 4<sup>th</sup> year, is **FREE** and will be open to the public on Saturday May 2<sup>nd</sup> and Sunday May 3<sup>rd</sup>.

The list of exhibitors and vendors has grown to more than 130 and **Expo** guests will be able to learn about the most cost effective and environmentally responsible methods of creating a more sustainable way of living here on Florida's West Coast.

Butterflies are beautiful... but they're also an important component in having a healthy garden. Pam Traas has written 3 books on butterflies... and she'll show all of us how to create a butterfly haven in our own back yards.

Returning for 2009, Dale Armstrong's popular Rain Barrel Workshop. We'll learn how to collect rainwater for use in the yard. Not only do rain barrels help save water, they also minimize the amount of polluted storm water run-off.

The theme of the **Pinellas Living Green Expo** is *Save Money... Save the Environment*. And, in these uncertain economic times, it has never been more important to make sure we are preserving our dwindling natural resources and moving our society towards sustainability.

**The Pinellas Living Green Expo** will be open from 9am - 5pm on Saturday... and from 10am - 4pm on Sunday. The HarborView Center is located at 300 Cleveland St. in Clearwater. **Admission is FREE! Parking is FREE!** Come spend the day with us.
